

Dräger sampling tubes and badges

- Different Sampling Systems Charcoal / Silicagel
- For thermodesorptions
- Lowest detection limits

Dräger sampling tubes and systems are used to perform identification and measurement where complex mixtures are present or where several very similar substances are present at the same time.

Sampling Tubes & Systems for Short- & Long-Term Measurements

Dräger-Tube	Order Code
Activated Charcoal Tubes Type B	154-6733011
Activated Charcoal Tubes Type G	154-6728831
Activated Charcoal Tubes Type NIOSH	154-6728631
Aldehyde-Sampling-Set	154-6400271
Sampling Tubes Amines	154-8101271
Isocyanate-Sampling-Set	154-6400131
Nitrous-Oxide Diffusion Sampler	154-8101472
Diffusion Sampler ORSA 5	154-6728891
Diffusion Sampler ORSA 25	154-6728919
Silica Gel Tubes Type B	154-6733021
Silica Gel Tubes Type G	154-6728851
Silica Gel Tubes Type NIOSH	154-6728811
