

**CHLOR\*TEST "W"** is a complete, ready to use test kit. Even an inexperienced person can accurately measure chloride levels.

**CHLOR\*TEST "W"** was developed for field and laboratory use. Cross contamination from test to test is eliminated through onetime use individual components. Accurate results in parts per million are obtained. No temperature correction is needed from 41°F to 176°F. Testers around the world will use this innovative product with confidence.

Whether in the laboratory or out at the job-site, obtain accurate ion specific measurement of chlorides from 0 - 2,000 ppm. Use **CHLOR\*TEST "W"** for water and many other liquids.

Most Potable  
Water Is  
Chlorinated

When specifications require safe and reliable testing for chloride contamination use **CHLOR\*TEST "W"**. Each kit contains everything needed to perform five (5) individual tests.
