

Surfa Test Coating Thickness Measurement

Application

For quick and easy thickness measurement of freshly applied wet paint

Performance Features

- gauge made of hard wearing stainless steel
- no electric power required

Order #140-Surfa-Test

Measuring Principle

Measuring comb, contact measurement

TECHNICAL DETAILS

Total measuring range:			
25 µm ... 800 µm (front)			
1 mil ... 32 mils (back)			
Scale:			
25,	50,	75,	100 µm
125,	150,	175,	200 µm
250,	300,	350,	400 µm
500,	600,	700,	800 µm
1,	2,	3,	4 mils
5,	6,	7,	8 mils
10,	12,	14,	16 mils
20,	24,	28,	32 mils
