

## LED Voltage and Continuity Tester

**MODEL: MTP-1030**

### Features

- LED bargraph display
- Automatic polarity indication
- Automatic AC/DC voltage measurement selection
- AC/DC voltage measurement up to 690V
- Frequency range AC voltage measurement from 0Hz up to 60Hz
- Acoustic single pole voltage measurement (691 LED voltage and continuity tester)
- Overload protection
- No battery needed (Even for continuity test)
- Supplied complete with protective case
- Operating temperature: -10°C up to 55°C at RH <80%
- Dimensions: 230 x 53 x 45mm
- Weight: Approx. 210g

### Specifications

- Display: 8 LED (12, 24, 50, 120, 230, 400, 690V, Polarity)
- Polarity Indication: Automatic
- Single Pole Voltage Range: 100 - 690V with an acoustic signal
- Frequency Range: 0 - 60Hz
- Continuity Range: 0 - 800k
- Internal Energy Storage: Yes
- Charge Time: Approx. 5s/230V
- Standby: Approx. 30 min.
- Test Duration: Approx. 1 min.
- Internal Load: Approx. 1.3W / 230V
- Test Current: < 3.5mA
- Peak Current: < 0.25A
