

## Pocket Thermometer Pocket-Size Stem Thermometer

### Model 400-134SP

The Model 134SP features an accuracy of  $\pm 1\%$  of full-scale range. The instruments are constructed of 304 stainless steel. The thermometer is corrosion resistant to most chemicals and is hermetically sealed. It is rustproof, dustproof, and leak proof. The instrument has a high impact Lucite crystal. The dial is matte aluminum with large black numbers and graduations, making it easy to read from any angle. The Model 134SP comes complete with an attached pencil clip.

The PTC<sup>®</sup> Model 134SP Pocket Thermometer will remain accurate for the life of the instrument, if handled with care. The Model 134SP has an external resetting nut for field calibration.

5" stem, with an accuracy of  $\pm 1\%$  of full-scale range
