

Aqua-Vu Accessories

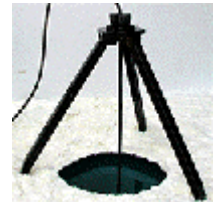

NEW Aqua-Vu 35mm Camera
#204-AV35

New for 2003, the AV-35 makes it easy for anyone to take high-quality underwater photographs. The AV-35 is a waterproof, re-usable 35-mm camera, which features a built in flash. Waterproof to 15 meters, the camera can also be taken out of the underwater housing for use in dry conditions. The AV-35 offers all of these features at a price comparable to most single-use disposable underwater cameras. On vacation, at the beach, or in the boat - the Aqua-Vu 35 is perfect for capturing your outdoor memories.

NEW Battery Doc
#204-BD-12

The ideal sportsman's battery charger. It includes a three LED charge indicator. It also has two stages of operation, Constant Voltage (Maintenance) and Constant Current (Charging.) With an operating temperature of 32 degrees to 104 degrees Fahrenheit this charger can go anywhere. The Secret behind the Battery Doc is their use of a "Switcher Power Supply Technology" which means no magnetics and a lighter charger. Battery Doc includes Male Connector (cigarette lighter) Output with conversion Battery Clips and a Motorcycle Plug to accommodate any application and everything fits neatly into a convenient storage case.

NEW Ice Pod
#204-IP

New for 2003, the Ice Pod accessory makes it easy for anglers to keep their camera facing the proper direction. A ball-socket style cable stopper attached at the desired depth, makes it possible to fine-tune the camera's field of view, the Ice Pod positions the camera above the bottom without disturbing sediment that decreases water clarity and reducing viewing distance. The Ice Pod is a must-have ice fishing accessory, whether horizontal-or down-viewing.
