

Aspheric Magnifiers

Distortion Free Aspheric Magnifiers.

About Aspheric Magnifiers:

Aspheric magnifiers unlike spherical magnifiers provide an "orthoscopic" image. Our Aspheric lenses are shaped with a variant radii calculated to produce a sharp image right to the edge of the lens. This allows for distortion-free viewing over the entire lens area with greater magnification than is possible with a normal spherical lens.

106-A-2000 Illuminating Hand Magnifier

Powerful 2"x4" Aspheric lens provides 3X magnification. Bright 6-watt bulb combined with brilliant reflector gives maximum lighting over viewing area. Natural hold switch activates light when in use and allows for automatic shut-off of light when not in use. Detachable cord with strain relief easily unplugs for use with or without light. Additional bulbs and power supplies can be ordered separately for convenient replacement.

160-A-2072 Rectangular Stand Magnifier

Same 3X Aspheric rectangular lens as used in the A-2000, but mounted in a prefocused stand. Fits conveniently over surface to be viewed.

106-A-2024 Rectangular Hand Magnifier

Magnifier utilizes the same 3X Aspheric rectangular lens as in the 2x4 illuminated magnifier but without the light. Sleek lightweight designer handle allows for hours of comfortable use.

106-A-2099-DP Aspheric Display

Contains: 3 each of A-2000, A-2024, A-2028, A-2060, A-2072 Aspheric Magnifiers.

106-A-2028 Round Stand Magnifier

Powerful 5X Aspheric lens mounted in a prefocused stand allows users to view large 60mm. area. Great for any activity requiring distortion free viewing at higher magnifications.

106-A-2060 Round Hand Magnifier

Same powerful 5X Aspheric lens as used in the A-2028 magnifier, conveniently mounted in a hand held reader. Compact design easily fits into pocket or purse.
